Alumni Testimonials

Imparting high-quality technical education has been the dedicated mission of the founders of this institution. They have invested so much in the campus infrastructure, Lab facilities and faculty development, that any student who wants to become an engineer of fine quality will be very much benefitted. This college has provided me the ambience to nurture and bring out the best of my abilities for 4 years.

It's been over a decade since I graduated from RMK Group of Institutions, but it just feels like yesterday. I am truly grateful to the care and attention I received from the day I joined the college to the day I graduated with campus placement. I have not come across such a beautiful campus and the management team who actively listens and fulfils students' needs with utmost priority.
